PROFILE

A motivated and detail-oriented **Front-end Developer** with a solid foundation in modern web development technologies, including **React.js**, **Next.js**, and **Typescript**. Skilled in building responsive and user-friendly interfaces using **HTML5**, **CSS3**, **Tailwind CSS**, and **Bootstrap**. Proficient in **JavaScript (ES6)**, DOM manipulation, **AJAX**, and handling **JSON** data. Experienced with **Context API**, **Redux Toolkit, Zustand**, **jQuery**, and writing clean, maintainable code. Seeking to leverage my technical skills in a dynamic development team to contribute to impactful projects.

EDUCATION

B.Sc. in Medical Informatics

Faculty of computer science and Artificial Intelligence

• **Overall Grade:** Excellent

• **Graduation Project:** COVID Detection

A web-based application that allows users to upload chest **X- ray** or **CT scan** images to detect the presence of COVID-19. The system is integrated with **3 AI models**, each with a different accuracy level, providing predictions and confidence scores for each uploaded image.

• **My Role:** Developed the complete front-end interface with a responsive and user- friendly design, and integrated it with the Flask back-end to connect the UI with AI models, handle image uploads, and display prediction results along with accuracy scores.

• **Grade:** Excellent

SKILLS

- **Languages & Technologies:** HTML5, CSS3, JavaScript (ES6), Typescript, JSON, AJAX, Regular Expressions
- **Frameworks & Libraries:** React.js, Next.js, Redux Toolkit, Zustand, Context API, jQuery
- **UI & Design:** Bootstrap, Tailwind CSS, Responsive Design
- **Other Tools:** DOM Manipulation, Git (if applicable)

PROJECTS

• **E-commerce:** HTML / Typescript / Next Js / Tailwind / Framer-Motion   (Demo – Files)
Developed a responsive and full-featured e-commerce website using Next.js and Typescript, with modern UI components styled by Tailwind CSS. The platform allows users to browse products (shoes, clothes, furniture, and electronics), sign up / sign in, add items to cart or wish list, and place orders. Implemented cart management, order tracking, and seamless user experience across all devices

• **Ai-Travel Planner:** HTML / Tailwind / Javascript / Next Js / Shadcn UI / Aceternity UI   (Demo - Files)
Clerk for Authentication

A smart travel platform powered by AI and modern web technologies, there are two user roles
Admin (only one) – can add and manage new travel destinations
Regular Users – can explore destinations, make bookings, and complete checkouts

• **Car Hub:** HTML / Tailwind / Typescript / Next Js / Headless UI
A frontend application that allows users to search for cars by make, model, and custom filters like year and engine type (gas, electric, or mild hybrid)   (Demo – Files)

- **Corona_Inf:** HTML / Tailwind / Javascript / Next Js / Shadcn UI / Aceternity UI

Web Application that allows users to search for any country and get up to data information about covid-19 cases such as the number of confirmed cases, recoveries, and deaths.   (Demo – Files)

- **Grocery Shop:** HTML / CSS / Tailwind / Javascript / Next Js / Shadcn UI

This app allows users to add products to their cart and place orders seamlessly while seeing the total price, and tracking all the orders they`ve made.   (Demo - Files)

- **Movie app:** HTML / CSS / bootstrap / Javascript / React Js

Responsive web application that allows users to sign up, sign in, explore a wide collection of movies and shows and browse through various titles, view detailed information about each movie   (Demo - Files)

- **Crud System:** HTML / CSS / bootstrap / Javascript

This app allows users to perform full crud (Add, Update, and Delete) operations   (Demo - Files)

SOFT SKILLS

- **Communication, Problem Solving, Time Management**

- **Teamwork, Adaptability, Attention to Detail**

- **Creativity, Critical Thinking, Self-Learning**
